Subject: RE: System and Testimonial

Hi Tim,

Just a quick note to let you know how much we love our system. The sound quality is absolutely awesome. Sometimes I think we have Chris Isaak playing a concert for us out on our patio! Or Larry Fitzgerald is catching a flea flicker right in our media room. What a system! And I can't say enough about the professionalism of everyone associated with our install... the wiring guys, the electricians, the programmers, and of course you Tim!

We would not hesitate to recommend One Way Media to our friends and family for any media needs they may have.

Brian and Judy
