Subject: Thank You

Tim,

We were very pleased with the planning process, setup and the professional and courteous manner in which our system was installed by One Way Media. This was very important to Bonnie and I given the total lack of expertise electronically that we brought to the table. You made the whole process manageable and enjoyable. We would gladly recommend One Way Media to anyone. The name of your firm is very appropriate. There is only ONE WAY to do a job; the right way!
